

Starting 3rd cohort in Fall 2018:

A program for Bio, Chem, Psy and Geography Majors to learn computer science skills!

5 courses, 15 units total, taken during 4 semesters:

CSc 306 (*An Interdisciplinary Approach to Computer Programming*)

CSc 307 (*Web Programming*)

CSc 220 (*Data Structures and Algorithms*)

CSc 698 (*Two semesters to work on an independent project in a team*)

No prior CS knowledge needed!
Details on PINC web site

Loaner laptops will be available for everyone in the program!

If you're interested in taking the first class, visit pincsfu.edu to sign up!

Get a minor in Computer Applications *or* take one class to find out more about CS.

Mentoring by CS students and multiple caring Professors!

Apply your new CS skills to topics of your major & improve your job prospects!
